

16th - 17th November 2017
De Ruwenberg – Den Bosch

Thursday November 16th

10.00-13.00	Registration
09:00-11:30	<i>Meeting of the Dutch Antibiotic Stewardship teams</i>
11.30-13.00	<i>Business meetings NVMM and VIZ</i>
13.00-14.00	Walking lunch and visit of the exhibition hall
	<u>KEYNOTE LECTURES</u>
	Chairpersons: prof. Dr. Geert Claeys, UZ-Gent + dr. Karin van Dijk, VUmc Amsterdam
14.00-15.00	Zoonoses and antimicrobial resistance Prof. dr. Jaap Wagenaar, University of Utrecht
15.00-16.00	Parodontitis Prof. dr. Hugo De Bruyn, Universitair Ziekenhuis Gent
16.00-16.30	Coffee Break and visit of the exhibition hall
	<i>Parallel session 1: Molecular diagnostics and MaldiToF</i>
	Chairperson: prof. dr. Marie-Pierre Hayette, CHU Liège
16.30-17.00	MaldiToF determination of fungi; Dr. Sc. Marijke Hendrickx, Institute of Public Health, Brussels
17.00-17.30	NextGen Sequencing in diagnostics. Dr. John Rossen, UMC Groningen Groningen
17.30-18.00	Advances in 16S PCR. Dr. Mirjam Kooistra-Smid, Certe, Groningen
	<i>Parallel session 2: Tickborne disease and Q-fever</i>
	Chairperson: Dr. C. Bleeker-Rovers
16.30-17.00	Tick-borne relapsing fever <i>Borrelia</i>: right in our backyard? Dr. Alex Wagemakers, AMC Amsterdam
17.00-17.30	Tick-borne encephalitis Dr. Steven Van Den Broucke, Institute for Tropical
17.30-18.00	Medicine, Antwerp
	Chronic Q fever. Dr. C. Bleeker-Rovers, Radboudumc Nijmegen
18.30	Dinner
20.00	Scientific quiz and drinks

Friday November 17th

08.00-09.00

Registration

09.00-10.30

Parallel session 1 : Chairperson: Dr. Inge van Loo, MUMC, Maastricht

- 9.00-9.15 B. van den Poel
Impact of agar reading frequency on the reporting of blood culture
- 9.15-9.30 A. Cremers
Genomic resolution of methicillin-sensitive Staphylococcus aureus outbreaks in a neonatal intensive care unit
- 9.30-9.45 R. van Houdt
Can infection prevention measures for Clostridium difficile be tailored to specific strain types?
- 9.45-10.00 A. van der Zee
Detection and discrimination of ten clinically relevant Candida spp. with a novel real time molecular assay
- 10.00-10.15 A. Muyldermans
Evaluation of UMIC microdilution strip for colistin and piperacillin-tazobactam in non-cystic and cystic fibrosis patients
- 10.15-10.30 G.L. Vlaspolder
Evaluation of the Accelerate Pheno™ System for rapid antimicrobial susceptibility testing in extended-spectrum-β-lactamase-producing enterobacteriaceae

Parallel session 2 : Chairperson: Dr. Paul De Munter, UZ Leuven

- 9.00-9.15 M. van den Hurk
Improvement of survival of a Staphylococcus aureus sepsis after involvement of the antibiotic team and a bundle of interventions?
- 9.15-9.30 A. Papaleo
The tigecycline on the field: indications, efficacy, tolerability
- 9.30-9.45 S. van Landeghem
The use of Alpha-defensin (synovasure©) in the diagnosis of periprosthetic joint infections.
- 9.45-10.00 G. Frans
Non-invasive detection of prosthetic joint infections by multiplex antibody detection: Experiences in a tertiary care center
- 10.00-10.15 P. de Boer
Cost-effectiveness of a screening program for chronic Q-fever in the Netherlands
- 10.15-10.30 R. Streefkerk
The building blocks for standardized communication of medical microbiological information for ABR surveillance

10.30-11.00

Coffee Break and visit of the exhibition hall

- 11.00-12.30** *Parallel session 1: Multidrug-resistance and PKPD*
Chairperson: Dr. Miquel Ekkelenkamp
- 11.00-11.30** **Treating ESBLs with beta-lactams other than carbapenems.** Prof. dr. Johan Mouton, Erasmus University Rotterdam
- 11.30-12.00** **Use of colistin.** Dr. Maya Hites, Hôpital Erasme, ULB
- 12.00-12.30** **Monotherapy vs combination therapy; clinical results.** Dr. Anouk Muller, Haaglanden MC, The Hague
- Parallel session 2 : Infections of foreign bodies*
Chairperson: Prof. dr. Willy Peetermans
- 11.00-11.30** **Prosthetic joint infections.** Dr. Jan Geurts, Maastricht UMC
- 11.30-12.00** **Vascular prosthetic graft infections.** Dr. Barbara Hasse, Klinik für Infektionskrankheiten und Spitalhygiene UniversitätsSpital Zürich
- 12.00-12.30** **Endocarditis and the new ESC guideline.** Dr. Jan van der Meer, AMC Amsterdam

12.30-13.30 **Walking Lunch**

KEYNOTE LECTURES

Chairpersons: Prof. dr. Denis Pierard, University Hospital Brussels + dr. Bram Goorhuis, AMC, Amsterdam

13.30-14.15

Carbapenemases and new antibiotics ; Prof. dr. Youri Glupczynski, Cliniques Universtaires de Mont-Godinne, UCL

14:15-15:00

Advances in Whipple's disease. Prof. dr. Thomas Marth, Krankenhaus Maria Hilf, Daun, Germany

Mdeon 17/V2/10361/005796
