

<b>Legend:</b>	<b>Clinical</b>	<b>General</b>	<b>Intermediate</b>
----------------	-----------------	----------------	---------------------

Tuesday 27 March 2018						
08:45 - 09:30	Registration and coffee					
<b>09:30 - 11:00</b>	<b>Plenary session</b>					
11:00 - 11:30	Coffee/tea break					
<b>11:30 - 13:00</b>	Surveillance of antimicrobial resistance, pathogens and plasmids in the clinic and the environment	The public health risk of Hepatitis E virus in a Dutch perspective	Climate change microbiology	Fundamentals of Clostridia	Maternal and neonatal vaccination against viruses and bacteria	Evolution and adaptation
13:00 - 14:00	Lunch & KNVM Business Meeting					
<b>14:00 - 15:30</b>	Everything you want to know about urinary tract infections, infection control and infection challenges in Dutch nursing homes	New developments in the treatment of HCV infections	Eukaryote-microbe symbiosis beyond the human body	Microbial ecology: colonization resistance through host-microbiota communication	Geographical variation in vaccine response	Clinical microbiology ?
15:30 - 16:00	Coffee/tea break					
<b>16:00 - 17:30</b>	Clinical significance of microbiota changes and <i>Clostridium difficile</i> infections	Epidemiology and pathogenesis of emerging flavi- and orthohantaviruses	General microbiology	Microbiota transfer between mother and baby	Speeding up vaccine development: about human challenge studies and correlates of protection	On microbiome education & citizen science, and scientific citizenship
17:30 - 18:30	Drinks					
18:30 - 20:30	Dinner					
<b>20:30 - 22:00</b>	<b>Poster session</b>					
22:00 - 01:00	Party					

Wednesday 28 March 2018						
08:30 - 09:00	Registration and coffee					
<b>09:00 - 10:30</b>	<b>Plenary session</b>					
10:30 - 11:00	Coffee/tea break					
<b>11:00 - 12:30</b>	Infection prevention	Pathogenesis	BAMA	Environmental microbiology	Microbial Darwinian Medicine	Antimicrobial Resistance
12:45 - 14:00	Lunch & BBC-MMO Business Meeting					
<b>14:00 - 15:30</b>	Clinical cases in medical microbiology: an interactive session (WAMM, NWKV, NVP, NVMy)	Host-microbe interaction	BAMA	General microbiology	New insights in bacterial meningitis	Bacteriophages - Improving the quality of life
15:30 - 16:00	Coffee/tea break					
<b>16:00 - 18:00</b>	<b>NVMM Business meeting</b>
