

Fall Meeting of the KNVM General and Molecular Microbiology Division

November 8th 2019

Vrije Universiteit Amsterdam
Auditorium, O2-building

de Boelelaan 1108, 1081 HZ Amsterdam

Koninklijke
Nederlandse
Vereniging voor
Microbiologie

PROGRAM

- 10:00-10:30 REGISTRATION
- 10:30-11:00 **Meindert Lamers** (*Leiden UMC*) – Targeting DNA replication in *M. tuberculosis*
- 11:00-11:30 **Dennis Claessen** (*Leiden University*) – Discovery of a new MurG-like protein required for peptidoglycan synthesis by exploitation of reversible metamorphosis
- 11:30-12:00 **Martin van der Laan** (*Saarland University*) – Biogenesis and functional architecture of mitochondrial membranes
- 12:00-13:30 LUNCH
- 13:30-14:00 **Karin Strijbis** (*Utrecht University*) – Intestinal mucin proteins: preventing or facilitating bacterial infection?
- 14:00-14:30 **Vera Ros** (*Wageningen University & Research*) – Walking with insects: how viruses manipulate insect behaviour
- 14:30-15:00 **Matthijs Jore** (*Radboud University*) – Antibody and complement-mediated killing of malaria parasites
- 15:00-15:30 BREAK
- 15:30-16:00 **Stefanie Berger** (*Radboud University*) – Complexomics of methane oxidizing archaea
- 16:00-16:30 **Bart Keijser** (*Academic Centre for Dentistry Amsterdam*) – Oral ecosystem dynamics - getting grips on microbial dysbiosis
- 16:30-17:00 **Bastiaan Krom** (*Academic Centre for Dentistry Amsterdam*) – Microbial darkweb; consequences of interkingdom interactions
- 17:00-19:00 DRINKS
