

NCHIV 2020 – virtueel.

[Conferentie](#) over hiv-pathogenese, epidemiologie, preventie en behandeling

Intro

De 13e Nederlandse conferentie over wetenschappelijk onderzoek naar hiv-pathogenese, epidemiologie, preventie en behandeling (NCHIV) vindt dit jaar virtueel plaats. Het online programma vindt plaats op twee dagen: **24 en 26 november** – met op beide dagen 's ochtends en 's middags unieke onderdelen die ieder maximaal 2,5 uur zullen duren. Alle bijeenkomsten, op een onderdeel na (Dag 4, Sessie 4), zijn in het Engels.

About NCHIV

NCHIV serves as platform for stakeholders in the Netherlands to share and discuss the latest insights and developments in research concerning the pathogenesis, epidemiology, prevention and treatment of HIV. The annual program hosted in English, includes invited lectures, presentations of original research and sessions which link research to societal impact and policy development by a faculty of national and international speakers. Note: Education points can be awarded for NCHIV. More info about conference accreditation can be found [here](#).

Preliminary programme: sessions and speakers

Tuesday 24 November 09:00 - 11:40: Session 1

- HIV and Tuberculosis: Sabine Hermans (AIGHD, Amsterdam UMC, UvA, Amsterdam)

- Highlights 2020 NL HIV Monitoring Report: Anders Boyd, Ard van Sighem, Colette Smit & Ferdinand Wit (SHM, AIGHD, Amsterdam UMC, AMC, GGD Amsterdam)
- Panel: We have the data... what's next?

Tuesday 24 November 15:00 - 17:15: Session 2

- Novel Antiretroviral Treatments and Strategies: Daniel Kuritzkes (Brigham & Women's Hospital, Harvard Medical School, Boston, MA, USA)
- Panel: Implementing long-acting antivirals for treatment and prevention in practice: Renee Finkenflügel, Emilie Gieling, Noëmi Nijsten, Marc Van der Valk, Karin Grintjes, Sjoerd Repping (Hiv-vereniging, Universitair Medisch Centrum Utrecht; Public Health Services Gelderland-Zuid; Amsterdam UMC, UvA; Radboudumc; Amsterdam UMC, UvA/Zorginstituut Nederland)

Thursday 26 November 09:00 - 11:40: Session 3

- HIV and Hepatitis B cure: Sharon Lewin (University of Melbourne, Australia)

Thursday 26 November 15:00 - 17:30: Session 4

- What Participants Know: The Critical Role of Socio-Behavioral Sciences in HIV Cure Research: Karine Dubé (University of North Carolina, Gillings School of Public Health, USA)
- The tale of two pandemics, what can one teach us in facing the other. A conversation between Yvonne van Duynhoven and Roel Coutinho, led by Coen Verbraak (Head of Infectious disease control Public Health Services Amsterdam; former Head of Public Health Service Amsterdam, and former Director of the National Institute for Public Health and the Environment; Dutch journalist and program director)

Please note: titles of plenary talks are subject to change

In line with previous years, sessions will also include oral abstract presentations, selected from the highest scoring submitted abstracts. All abstracts undergo blinded peer-review by a panel of experts. In addition, short parallel running oral poster presentations will also be part of this year's online programme.
