

PROMOTIES & ORATIES

PROMOTIES

31 mei 2022 - N.A.W. de Kok

Archaeal Lipid Biosynthesis: exploring the biosynthetic pathway towards complex membrane phospholipids

Promotoren: prof. dr. A.J.M. Driessen en prof. dr. ir. A.J. Minnaard
Rijksuniversiteit Groningen, afd. Moleculaire Microbiologie. Groningen Biomolecular Sciences and Biotechnology Institute

7 juni 2022 - B. Waclawiková

That gut instinct! Novel insights in the interplay between the microbiota, serotonin metabolism and gut function

Promotoren: prof. dr. S. El Aidy en prof. dr. S.J. Marrink
Rijksuniversiteit Groningen, afd. Moleculaire Microbiologie. Groningen Biomolecular Sciences and Biotechnology Institute

28 juni 2022 - D.P. Gonzalez Davila

Unlocking the mysterious interconnection between the gut microbiota and catestatin

Promotor: prof. dr. S. El Aidy
Copromotor: dr. S.K. Mahata
Rijksuniversiteit Groningen, afd. Moleculaire Microbiologie. Groningen Biomolecular Sciences and Biotechnology Institute

8 september 2022 - J.L.J.C. Assmann

Novel Molecular and Functional Insights into T-cell Large Granular Lymphocyte Leukemia

Promotor: prof. dr. A.W. Langerak
Copromotor: dr. V.H.J. van der Velden
Erasmus MC Rotterdam, afd. Immunologie

22 september 2022 - A.R. Sultan

On the Passive-aggressive Behavior of *Staphylococcus aureus*

Promotor: prof. dr. A. Verbon
Copromotor: dr. W.J.B. van Wamel
Erasmus MC Rotterdam, afd. Medische Microbiologie & Infectieziekten

7 oktober 2022 - P.P.A. Lestrade

Epidemiology and clinical implications of triazole resistance in *Aspergillus fumigatus*

Promotor: prof. dr. P.E. Verweij
Copromotoren: dr. W.J.G. Melchers en dr. J.F.G.M. Meis
Radboudumc Nijmegen, afd. Medische Microbiologie

ORATIE

30 september 2022 - Prof. dr. ir. R.P. van Rij

Leeropdracht: Experimentele Virologie
Titel rede: Let op de kleintjes!
Radboudumc Nijmegen, afd. Medische Microbiologie
